Denver-based designer Margarita Bravo has opened her Miami atelier, bringing her fresh perspective on color and the art of the mix to sunny interiors along with pillows and a collection of handmade furniture crafted in Portugal.

MARGARITA BRAVO
 886 NE 79th St., Miami
 margaritabravo.com

Describe your aesthetic in three words.
 Timeless, sophisticated, warm

Where do you draw inspiration from?
 Travels, nature, art

What's your earliest memory of design? When I was a kid, I enjoyed visiting my grandfather and saw him building houses around town. I feel it was just yesterday that he was building homes. His craftsmanship was unique. His patience to bring his design to vision was limitless.

What are your favorite design elements that are really having a moment? Biophilia, the concept of bringing the outdoors inside, and sustainable materials—the more eco-friendly, the better!

How do you want your clients to feel when they walk into their home? My ultimate goal is to create a sanctuary space for each client's unique needs. I want my clients to feel excited and relaxed at the same time. The space should stimulate their senses while providing functionality to serve their every need. ■
